

**FOR IMMEDIATE RELEASE:**

**iBill Promotion Sends Successful Merchants To Green Day Concert**

April 16, 2010

DENVER, COLO – Internet billing service provider iBill is offering an incredible opportunity to new merchants to reward their efforts in generating immediate transactions. For every new merchant that racks up \$2,000 in billing transactions in their first 30 days, iBill will give in return two free tickets to see Green Day live in concert on the band's North American swing of their 21<sup>st</sup> Century Breakdown tour, in the city of the merchant's choice.

The program's criteria are simple – merchants must open a new billing account with iBill between March 15 and May 31, 2010, and merchants must process at least \$2,000 in unique transactions during the first 30 days of the account. The giveaway applies to tickets for the concert only, and all other expenses, including travel and lodging, are the sole responsibility of the winning merchants.

“I just thought everyone loves Green Day,” said Jonas Brown, iBill's CEO. “And this promotion is the perfect way to get those hard-to-find tickets into our merchants' hands. We are planning on changing the way processors board new merchants. This is the first of many promos we will use to gain new merchants.”

iBill (Internet Billing Company, Inc.) provides ready made e-commerce solutions for merchants and businesses worldwide. The company offers merchants secure methods for processing transactions and payments for goods and services rendered, in real-time, over the Internet.
