

## **iBill Launches Innovative Financing Solutions for Every Small Business Owner to Increase Profitability Despite Economic Downturn**

*iBill now gives every small business owner, nationwide the ability to provide affordable financing solutions for their clients. New features of this web-based financing solution include allowing small business owners to earn an additional 12% interest and provide more flexible terms. The small business owner gets more business and increases profitability. iBill is keeping small business owners in business with its new features despite this economic downturn.*

Aurora, CO ([PRWEB](#)) February 27, 2009 -- iBill is a web-based, financial solutions company providing small business owners the ability to offer fully-customizable payment plans for their clients through its new features. This fully-customizable financing program, allows its Merchants to set up payment plans and earn up to an additional 12% interest for any length term. iBill does not require pre-approval for its small business owners (Merchants) to use this service, unlike larger financial institutions, which prohibit the small business from attaining financing solutions.

"Small and home-based business can no longer get approval to offer financing through larger financial institutions, due to recently deployed strict policies and procedures," says President and Founder of iBill, Jonas Brown. Adding, "We are unique in that we work with every small business, and we do not require pre-qualification. The Merchant carries the note, they set their own credit score tolerance, we run those credit checks, and manage billing and payment so they can provide affordable payment plans to their customers."

This web-based service now allows Merchants to earn up to an additional 12% interest, and iBill never takes more than its 7.9% flat fee. Brown says, "Our Merchants can make more if they charge a higher interest rate, and they can set up any term they choose. These new features are fully-customizable."

Tracy Smith, Owner of Global Business Plans says, "iBill allows me to up-sell clients I wouldn't otherwise acquire. It makes it more affordable for the client to pay longer terms, lower monthly payments, and overall, I get a bigger piece of the pie. iBill makes me more money in the long run."

iBill provides fully-customizable, web-based financing solutions for every small business, nationwide. Despite this economic downturn, they have the opportunity to grow their business and never lose a sale due to financial constraints. iBill Client (Merchant), John Ryan, Owner of Nevada Lawns says, "During the slow winter months, I am still being paid, because I am able to set up a monthly financing solution for my residential clients. It's made a huge impact on my positive cash flow!"

### About iBill:
